Deadline

in 2 weeks.

We don't have any strict deadlines, but we recommend completing the project

Prerequisites

Complete all the lessons on HTML and CSS. This means that all of your home

To participate in the project, you must:

assignments on these topics should be approved by mentors.

## Imagine that you have already finished this course. You want to apply for a job,

Task Description

experience.

so you need a resume. Create one to showcase your HTML and CSS skills and

### Your ultimate goal is to create this online resume as a website, so you will be able

Development Goals

Your main learning goals for this project are to:

Create a web page and fill it with content about you turning it to a resume.

2 Style your resume using CSS.

- Style your resume using Coo.

Make a resume responsive, so it will look good on any device.

to share it with anyone, especially your potential employers.

### Step 1. Create the structure of your resume

**Action Plan** 

### 2 Add a heading with your first and last name.

3 Style your name:

Create a web page.

- Italicize your first name.
- Bold your last name.
  - Underline your full name.
  - Email

Add your contact information:

- Address
- Add sections for your:

Spoken Languages

Phone Number

- Work ExperienceEducation
- EducationSkills
  - HobbiesReferences
  - CertificationsSocial Media Links
  - Add a profile picture.
- Add a summary section.

Step 2. Add styling for your resume

Make the social media links open in a new tab.

Organize your code using semantic HTML tags.

- Create a CSS file and link it to your HTML file.
- Change the font of your web page to "sans-serif."

Add classes to your HTML elements.

Remove the underline from your links.

Add a border to your profile picture.

Remove the bullets from your lists.

Make your profile picture round.

Step 3. Make your resume web page responsive

Change your web page's background color to #f5f5f5.

Separate the sections of your resume using a horizontal line.

Create a "div" container for the whole resume.
 Create a "div" for the left side of your resume. The succeeding parts should be

Import the "Awesome" font.

- on the left side of the resume:
  A "div" for the right side of your resume
- An "h2" element for your name
  A "div" for your contact information
- of the following sections:Work experience

Create a "div" for the right side of your resume. The succeeding parts should

be on the right side of the resume. They all should be "div" containers for each

- Spoken languagesHobbies
  - References
  - Make both the left and right sides of the resume display in a column arrangement when the device is <768px.

## Documents to Hand in

Education

Skills

A folder with:

A "div" for your profile picture
 An "h2" element for your name
